Academic positions

I have **eight years of research experience**, **more than seven years of teaching and course coordination at undergraduate and postgraduate levels**, and **five years of governance experience**, including **one year in senior leadership roles**.

Jan 2026 - **Senior Lecturer in Data Analytics in the Social Sciences**, *School of Social and Political Sciences, University of Sydney*, Sydney, Australia

Oct 2024 - **Deputy director of the Centre for AI, Trust and Governance**, *Faculty of Arts and Social Sciences, University of Sydney*, Sydney, Australia

Leading the strategic development of interdisciplinary research on AI governance, trust, and policy; defining six core research themes and directing the Centre's official launch; establishing international partnerships with institutions including the Schwartz Reisman Institute at the University of Toronto; advancing collaborative grant applications; fostering productive dialogue between HASS and STEM traditions to strengthen institutional research capacity.

Jan 2025 - **Director of the Computational Social Science Lab**, *University of Sydney*, Sydney, Australia

Institutionalising computational methodologies across the Faculty of Arts and Social Sciences; designing and leading a regular program of workshops on natural language processing, digital trace data analysis, and computational text analysis; fostering interdisciplinary collaborations between social scientists and computer scientists; mentoring early-career researchers in computational methods; establishing partnerships with national and international research centers; providing leadership in the development and application of digital research methodologies.

Jan 2023 - Dec 2025 **Lecturer in Data Analytics in the Social Sciences**, *School of Social and Political Sciences, University of Sydney*, Sydney, Australia

Designing, coordinating and teaching undergraduate courses in Digital Politics and Data Analytics in the Social Sciences (with R) and postgraduate courses in Research Design and Data Analytics for Social Research; supervising Honours, Masters and PhD students; recruiting and managing teaching and research assistants; serving on the Human Research Ethics Committee Arts and Social Sciences Low-Risk Sub-Committee (2023-2024); providing academic advising to students as Faculty Student Advisor; engaging with internal and external stakeholders on computational social science partnerships; conducting research on digital political participation and computational methods while maintaining teaching excellence evidenced by highest year-on-year increase in student satisfaction in the School.

Mar 2019 - Jan 2023 **Lecturer in Digital and Social Media**, *School of Communication, University of Technology Sydney*, Sydney, Australia

Designing, coordinating and teaching courses in the Bachelor of Communication Digital and Social Media program, including Digital Media Industries, Code as Literacy/Commodity/Infrastructure, Digital Media Marketing/Metrics/Data, and Working with Data and Code; supervising Masters and PhD students; recruiting and managing teaching assistant teams; developing innovative curriculum integrating programming, data analytics, and digital media studies; engaging with industry and government stakeholders on digital transformation projects; conducting research on platform politics, computational methods, and digital political communication; contributing to faculty governance and strategic planning in digital media education.

Jan 2018 - Mar 2019 **Postdoctoral Fellow in Digital Media Methods**, *Department of Media and Communications, the University of Sydney*, Sydney, Australia

Conducting research on digital methods in political communication and public opinion for monograph development; designing and delivering interdisciplinary training workshops on computational methods and digital data collection for faculty and students across humanities and social sciences; establishing foundational infrastructure for digital methods research within the department; designing, coordinating and teaching the postgraduate course Public Opinion, Policy and the Public Sphere; contributing to the development of digital research capacity and methodological innovation across the university.

Non-academic positions

I have **five years of applied research and program management experience in international development**, including **survey design** and **quantitative evaluation** for government organisations, **large-scale project management**, and **field experience** in fragile states.

Aug 2017 - Jan 2018 **Survey consultant**, *Cambodia Development Resource Institute (CDRI)*, Phnom Penh, Cambodia

Designing and implementing national survey research on communication technology adoption and digital media use among Cambodian population; developing sampling methodology and survey instruments for large-scale quantitative data collection; managing fieldwork coordination and data quality assurance; conducting statistical analysis of survey data; producing research reports on patterns of technology adoption and digital communication practices for policy stakeholders and development organizations.

Jun 2012 - Mar 2013 **Survey consultant**, *Australian Centre for International Agricultural Research (ACIAR)*, Canberra, Australia

Designing and conducting impact evaluation research for Australian government development aid program in Afghanistan; establishing evaluation methodology and developing survey instruments for program assessment; coordinating with local research partners and implementing agencies in challenging field environments; managing cross-cultural research collaboration and fieldwork logistics; conducting quantitative data analysis and interpreting evaluation findings; producing research reports on program effectiveness for government and international development stakeholders.

Mar 2011 - Mar 2012 **National Program Manager**, *Mission of Assistance for the Development of Rural Economies in Afghanistan (MADERA)*, Kabul, Afghanistan

Managing implementation of the National Solidarity Program across four Afghan provinces; overseeing operational budget of US$2.1 million and supervising staff of 200; monitoring program delivery and community development initiatives in hundreds of rural communities; coordinating with government ministries, international donors, and local implementing partners; ensuring program compliance, accountability and reporting standards; managing complex logistics, stakeholder relationships and field operations in challenging security environment.

Feb 2009 - Feb 2010 **Specialist in Business Development**, *Food and Agriculture Organization (FAO) of the United Nations*, San Marcos, Guatemala

Oct 2006 - Sep 2007 **Field Coordinator (volunteer of Italian Civil Service)**, *Fundación Proyecto Don Bosco*, Ambato, Ecuador

Education

Aug 2017 **Doctor of Philosophy (PhD)**, *Department of Government and International Relations, the University of Sydney*, Sydney, Australia

On 20 October 2023, the degree in Doctor of Philosophy was recognised in Italy by the University of Padova according to Article 38, paragraph 3.2 of Legislative Decree 165/2001.

Sep 2013 **Diploma in Data and Systems Analysis**, *University of Oxford*, Oxford, United Kingdom

Jan 2011 **Master of Science in Public Policy and Sustainable Development**, *Maastricht University*, Maastricht, the Netherlands

Apr 2008 **Master of Arts in Economics, Politics and International Institutions (2nd Cycle/Graduate Degree)**, *University of Pavia*, Pavia, Italy

Dec 2004 **Bachelor Degree in International Studies (1st Cycle)**, *University of Turin*, Turin, Italy

Research

- I have **eight years of experience as an academic researcher** in **computational social science**, **digital political communication**, and **platform governance**, combining rigorous quantitative methods with substantive questions about how **digital technologies reshape democratic participation**.
- I have secured over **AU$672,000** in competitive research funding as Chief Investigator.
- My research integrates **computational methods** (**network analysis**, **natural language processing**, **spatial analysis**) with traditional social science approaches to examine how **digital platforms** and **AI technologies** reshape **political participation**, **misinformation**

dynamics, and **democratic resilience** across diverse political contexts.

- My publication record includes **14 peer-reviewed journal articles** (predominantly in Q1 journals), **2 books**, and **15 news articles**, complemented by **45 invited presentations at academic conferences and research seminars** and **27 media appearances**, demonstrating both scholarly impact and commitment to public engagement and knowledge translation.
- I actively contribute to policy development through **government consultations** on **AI regulation**, expert participation in technology policy roundtables, and **media commentary** translating research into public discourse.

Teaching

- I have **11 years of university teaching experience** in Australia, with proven expertise in making **computational social science methods** accessible to diverse audiences across undergraduate, postgraduate, PhD, and professional development contexts.
- My teaching portfolio encompasses the full spectrum of **quantitative and computational method**s: **statistical and data analysis**, **research design**, **digital methods**, **data visualisation** (R but also JASP and Tableau), **network analysis**, **natural language processing**, and programming (**Python** and **R**), delivered through innovative pedagogical approaches including **Jupyter Notebooks** and active **learning strategies**.
- I have extensive experience **coordinating large courses** (up to 300 students), **recruiting and training teaching assistants**, and implementing technology-enhanced learning that has resulted in recognition through the **2023 Teaching Innovation Award** and the highest year-on-year increase in student satisfaction within my School.
- I hold the Italian scientific qualification ("**Abilitazione Scientifica Nazionale**") as Associate

Professor for the disciplinary fields of **14/A2 - Political Science** and **14/C2 - Sociology of Culture and Communication** (valid until 03/10/2033), demonstrating readiness for Associate Professor responsibilities in the Italian higher education system and commitment to European academic integration.

Workshops

Jul 2026 **AI Winter School** 🔗, *Centre for AI, Trust and Governance, University of Sydney*, Camperdown, Australia
Led the design of the inaugural AI Winter School, a four-day intensive program for postgraduate researchers and academics spanning the technical foundations of AI, its ethical and governance implications, and its use across the research process; set the curriculum and session structure across the four thematic days (AI for research, technical foundations, AI for writing and literature review, data analysis and modelling), convened the speaker program, and taught two sessions ('What Are Researchers Actually Using AI For?' and 'AI for Literature Review').

Jul 2022 **(The Art of) Text Mining and Analysis** 🔗, *Winter School Training Session - ANZCA*, University of Canberra
Professional development workshop for academic and industry researchers covering data visualization with Tableau (including JSON data import and text analysis functions), introduction to R programming and the tidyverse ecosystem, text mining workflows (data import, tidying, modeling, and presentation), document-term matrices, and topic modeling using Structural Topic Models (STM), with hands-on exercises analyzing literary texts and social media data.

Jul 2021 **How to do Social Media Data Analysis Using Tableau (Honours)**, *School of Communication*
University of Technology Sydney

Dec 2018 **Topic Models in R** 🔗, *DH Downunder 2018 Summer School*, The University of Sydney
Professional development workshop on computational text analysis using R, covering data import from multiple sources (PDFs, HTML, XML, APIs), text data tidying with tidyverse and tidytext packages, document-term matrices, and implementation of Structural Topic Models (STM) for discovering latent thematic patterns in textual data, with hands-on exercises analyzing literary texts and web-scraped content.

Jun 2018 **Digital Methods Workshop: Social Network Analysis, Twitter Data Collection, Text Analysis and the R Software** 🔗, *Department of Media and Communications, Faculty of Arts and Social Sciences*, The University of Sydney

Nov - Dec 2016 **Digital Media Methods: Applications of R Software and RStudio to Social Research** 🔗, *Department of Media and Communications, Faculty of Arts and Social Sciences*, The University of Sydney
Two-day professional development workshop introducing R programming fundamentals and social media data collection: Day 1 covered R/RStudio basics, data manipulation with dplyr, data visualization with ggplot2, and text mining with tm package using Twitter data from the #smachedavo protest; Day 2 focused on API authentication, live Twitter data collection using twitteR package, for-loops and control flow structures, and automated data scraping workflows.

Guest lecturer

2025 **GOVT2901 Contemporary Issues in Politics and International Relations II**, *Discipline of Government and International Relations, School of Social and Political Sciences*, University of Sydney
